Program-At-A-Glance

November 20-21, 2019 | Seaport Hotel | Boston, MA

This year's conference will address common challenges and areas of mutual interest in our strategic U.S.-Canada energy and environmental relationship, including:

- Electricity supply and demand developments, new and diverse resource integration, and the future of cross-border hydro power connectivity;
- Current status and outlook for expanding offshore wind projects and their impacts on the Northeast power grid;
- The future of natural gas and LNG and gas transmission infrastructure in the Northeast;
- The impact of new technologies such as energy storage, electric vehicles, advanced energy efficiency, and peak demand management on power grid reliability and consumer energy costs;
- Mutual green energy, carbon reduction, and carbon neutrality goals, strategies, and impacts;
- Managing the impacts of rising energy costs on Consumers and Businesses in a transitional energy marketplace; and
- Outlook and impact of newly emerging clean energy technologies.

This executive level business forum is the only one of its kind held annually in Boston focusing on all sectors of energy trade and cooperation between the Northeast U.S. and its greatest energy partner, Canada. It brings together more than 250 Canadian and American senior executives, policy makers, regulators and energy experts who will provide their perspectives, share knowledge and explore a wide range of topics.

The event is being convened by the New England-Canada Business Council (NECBC), a non-profit organization founded over thirty years ago to promote cooperation, commerce, entrepreneurial networking and a greater awareness of the strategic importance of the New England-Canada relationship.

Be part of this year's forum and benefit from our unique cross-border networking opportunities and a productive Canadian-American dialogue on timely energy and environmental issues.

Register NOW!

ENERGY remains a central force linking New England and Eastern Canada. Working together, the region can make great strides in achieving its shared goals of expanding clean and renewable energy and lowering greenhouse gas emissions while balancing energy reliability, consumer cost and economic growth.

Program-At-A-Glance

Day 1 | Wednesday, November 20

12:30 – 1:00 p.m. | Conference Registration

1:00 – 1:10 p.m. | Conference Welcome

1:15 – 2:30 p.m. | Session 1: Current State and Future Outlook of U.S.-Canada Energy Markets, Resources and Delivery Infrastructure

2:30 – 2:45 p.m. | Short Coffee and Stretch Break
